8 APPENDIX C
9 BRIEF PAGE 172

10 AFFIDAVIT OF ROYAL R. RIFE, OF 9009 CAMPO ROAD,
11 SPRING VALLEY, CALIFORNIA TO U.S.COURT OF APPEALS
12 FOR THE NINTH CIRCUIT TO EXPOSE THE IMPAIRMENT OF
13 THE OBLIGATIONS OF CONTRACTS BETWEEN JOHN F.CRANE
14 AND OTHERS AS WELL AS MYSELF AND TO STATE THAT
15 MY DEPOSITION WAS WITH-HELD BY CRIMINAL JUDICIAL
16 PROCESS IN VIOLATION OF THE SIXTH AMENDMENT: TO
17 THE UNITED STATES CONSTITUTION AND DUE PROCESS.

18 I, ROYAL R. RIFE, as Counsel in pro per, do hereby

19 certify that this affidavit is true and correct under penalty of
20 perjury: I certify that the American Medical Association and the
21 Department of Public Health has declared war on the Rife Virus
22 Microscope Institute which bears my name and the associate doctors
23 to impair the obligations of contracts in research on a non-profit
24 basis by forcing John F. Crane into peonage and in subjecting my
25 life work into criminal libel, quackery and fraud by tyranny.

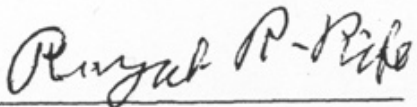

26 I started this research in 1913 and have spent
27 hundreds of thousands of dollars in finding a method to isolate and
28 positively identify cancer and other types of virus and also to kill
all types of bacteria, virus, fungi, and worms with safe audio
frequencies from Frequency Instruments. My Universal Microscope was
published by the Smithsonian Institution and the Franklin Institute

1 by Dr. R.E.Seidel,M.D. after his team of scientists investigated the
2 Rife Research Laboratory in 1943-44. I was assisted by Dr Arthur I.
3 Kendall of Northwestern University Medical School who gave me his K
4 Media upon which I grew the first cultures of cancer virus made by
5 ionization and injected the virus in rats and grew tumors from them
6 having the pathology of BX (as Carcinoma) or BY (as Sarcoma).

7 Ben Cullen worked with me in my laboratories from 1915 and
8 on and has seen hundreds of slides and watched the virus of cancer
9 and other bacteria be electrocuted by electron therapy over my high
10 powered microscopes literally explode and die at 10,000X to 50,000X.
11 I also worked with Milbank Johnson,M.D., E.C.Rosenow, Sr.,M.D. of
12 Mayo Clinic, R.T.Haimer,M.D. of Paradise Valley Sanatarium (Now at
13 St. Helena, Calif.), James B. Couche,M.D., Arthur Yale,M.D., Karl
14 Meyer,M.D. of the Hooper Foundation and his assistants and hundreds
15 of other M.D's and scientists throughout the United States.

16 I offered this cure for cancer, staph, strep, leprosy,
17 and all the other incureable diseases to the American Medical Assoc-
18 iation and they didn't want it and those that worked with me have
19 been, for the most part, brain washed and intimidated while all
20 publications of my work have been feloniously censored by them. I
21 worked with John Crane for 10 years from 1950 to 1960 and have train-
22 him in every step of my research knowledge. My private laboratory
23 invoiced at one time at about 2 Million Dollars. I was supported by
24 Harry Bridges and H.H.Timken and Milbank Johnson with unlimited help
25 and influence. Having spent every dime I earned in my research for
26 the benefit of mankind, I have ended up as a pauper but I achieved
27 the impossible and would do it again.
